

Important changes are coming your way

In the future, you will...

- Not use XYZ to return unused parts back to the warehouse
- Instead, place unused items on a delivery table for pickup without any additional processing on your part
- See bar code labels, called XYZs, on parts or packages
- Please do not remove or tamper with XYZs – they are crucial in identifying parts in the warehouse

*These changes will be a result of the Airline's new warehouse system, WMS (Warehouse Management System).
If you have any questions or comments, email xyz@email.com*

Important changes are coming your way

Receipts

- See bar code labels, called XYZ, on parts or packages
- Please do not remove or tamper with the XYZs – they are crucial in identifying parts in the warehouse

Returns

- Not use XYZ to return unused parts back to the warehouse
- Instead, place unused items on a delivery table for pickup without any additional processing on your part

*These changes will be a result of the Airline's new warehouse system, WMS (Warehouse Management System).
